

ARPA FUNDING UPDATE

Subject: Amended Deadlines for ARPA Reporting

The U.S. Treasury has announced that the deadline to file the first Project Expenditure Report for Non-Entitlement Units (NEUs) has been extended from October 31, 2021 until April 30, 2022. The first annual report for metropolitan entities has also been changed from October 31, 2021 to January 31, 2022.

In the meantime, your town may want to review the Treasury's Compliance and Reporting Guidance available [here](#). Please note that this guidance is for all levels of government, so much of it is not applicable to NEUs. Information about the Project and Expenditure Report starts on page 15.

The Association of Towns will update you and send out more information as it becomes available.
